EXPERIENCE

IT Center Revolution, Tashkent - Frontend Mentor

Nov 2022 - PRESENT

- Designed and delivered interactive lessons on HTML, CSS, and JavaScript to engage young learners.

GCenter (startup-project) - Frontend developer

Aug 2022 - Nov 2022

- Collaborated with a team to build a management platform for education centers.
- Gained insights into project architecture and best practices.

PROJECTS

[motoshop.uz](#) (bike marketplace)

Dec 2023 - March 2024

- Developed a comprehensive motorcycle marketplace platform as measured by a seamless user experience by utilizing Typescript, ReactJS, AntD, Node.js, Fastify, and MongoDB.
- Implemented robust user authentication, intuitive ad creation/editing, like/unlike, views functionality, and fully responsive design.

[Bismillah-travel](#) (Travel Landing page)

Dec 2023 - Dec 2023

- Built a high-performance, SEO-optimized landing page using ReactJS and Sirv CDN.
- Focused on responsive design, PWA implementation, lazy loading, and component reusability.
